EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Paul L. Sharer on 08/12/2009.

3. The application has been amended as follows:

In claim 1 please replace "whereupon contact with the particles causes said particles to swell" with --whereupon contacting the particle mixture with the curable composition causes said dispersing particles to swell.--

In claim 14 please replace "whereupon contact of the particles with said matrix causes said particles to swell" with --whereupon contacting the particle mixture with said acrylic matrix causes said particles mixture to swell.--

Art Unit: 1796

4. The rejection of claims 1-2, 5, 11 and 14 under 35 U.S.C. 102(b) as being anticipated by JP Pub. No. 09164538 A (hereinafter "'538") is withdrawn.

Allowable Subject Matter/Reasons for Allowance

5. Claims 1-11 and 13-24 are allowed.

6. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is JP Pub. No. 09164538 A (hereinafter "'538"). '538 teaches a process for preparing an artificial marble surface. '538 teaches a process comprising dispersing antibacterial particles in a release agent (carrier). See '538, paragraph 0016. '538 further teaches mixing said particle dispersed in release agent with a curable resin composition (acrylic resin) to form a thermo-formable sheet. See '538, paragraphs 0012 & 0019. '538 further teaches that the 0.01 to 30 wt. % of anti-bacterial medicine is added to marble and that anti-bacterial medicine is dispersed throughout the surface of the marble. See '538, paragraph 0015 and 0021-0023. '538 differs from the current invention in that current invention has a particle swelling upon contacting the particles with a matrix (or carrier).

7. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including '538 to render the present invention anticipated or obvious to one of ordinary skill in the art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
